Bernett is established in Milan in 1948 for the production of aromatic natural derivatives.

In 1988 Bernett begins the production of botanical extracts and in 1997 moves to its actual location in Palestro (Pavia).

The company is engaged in the production and trade of botanical extracts to supply pharmaceutical, healthfood and cosmetic markets.

In 1998 IdB Holding - Indena acquires Bernett.

The plant located in Palestro covers a surface of 25 thousand sqm, with a yearly biomass processing capacity of several hundred tons. Research departments are endowed with leading edge technology equipments.
